

Sujeet Singh

SOFTWARE ARCHITECT · FULL STACK DEVELOPER

☎ +91 8351966171 | ✉ sujeets207@gmail.com | 🏠 singhsujeet0.web.app | 📱 powerfist01 | 🌐 powerfist01

Objective

Experienced in full-stack development, proficient in backend technologies and frontend frameworks. Passionate about Linux, leveraging its robust ecosystem to create optimal development environments. Proficient in web development, database and system design. Seeking a challenging software development position to utilize my strong technical skills, problem-solving abilities. I am dedicated to staying up-to-date with the latest industry trends and advancements. This allows me to continuously expand my skill set and adapt to evolving technologies.

Work Experience

GreyB Research Pvt. Ltd.

Mohali, India

SOFTWARE DEVELOPER

Jun. 2020 - PRESENT

- Maintaining and managing the development of a progressive web app, utilizing CRUD, PostgreSQL, VueJS, and Django.
- Achieved over 10x acceleration in data extraction by leveraging AWS Lambda, significantly enhancing efficiency and performance.
- Develop scripting and automation engine to optimize and expedite tasks, resulting in substantial improvements in throughput and efficiency by automating data processing, file manipulation, and system configurations using programming languages Python and Bash.
- Utilized Vue.js/Nuxt.js framework to develop interactive data dashboards and various web pages, delivering visually appealing and user-friendly interfaces.

Flick2Know Technologies Pvt. Ltd.

Gurgaon, India

SOFTWARE ENGINEER

May 2019 - Jul. 2019

- Developed a feedback API using Node.js, allowing users to provide feedback on the product and enhancing the overall user experience.
- Leveraged MongoDB aggregations to perform advanced data analysis on the feedback data, extracting meaningful insights and identifying trends.
- Researched and implemented Cube.js which a powerful business intelligence tool, to enhance the product's data analytics capabilities.
- Improved the performance of real-time business activity monitoring report and reduce the report response time by more than 50%

Technical Skills

General	Data Structure and Algorithms, OOPs, Git
Programming	C/C++, JavaScript, Python
DevOps	Apache, Selenium, Docker, CI/CD
Frameworks	Django, Node.js, Flask, FastAPI, Vue.js
Database	PostgreSQL, MySQL, MongoDB

Education

Indian Institute of Information Technology, Una

Himachal Pradesh, India

B.TECH. IN COMPUTER SCIENCE AND ENGINEERING

Jul. 2016 - May 2020

CGPI - 8.17/10.00

Projects

WeAsk

Q & A SOCIAL PLATFORM

- Designed and developed a progressive web app deployed on Heroku, fostering connections between students and seniors through a Q&A platform, utilizing innovative and user-friendly software development techniques.
- **Technology/Tools:** Node.js, Express.js, MongoDB, HTML, CSS

NoteApp

NOTE TAKING WEB APP

- Engineered a secure and intuitive web application featuring robust user authentication, activity monitoring, seamless registration, and convenient note-taking capabilities, ensuring a user-friendly experience.
- **Technology/Tools:** Flask, SQLite3, HTML, CSS

Extracurricular Activity

Hobbies include reading technical articles and building things based on it. Also, my interests are in playing chess and solving puzzles.
